

# Nature's Appeal<sup>®</sup>

## TECHNICAL INFORMATION

### DESCRIPTION:

Nature's Appeal<sup>™</sup> is a solid, paste-gel containing humectant and reagents, which adsorb, neutralize or alter undesirable odors and fumes. Nature's Appeal<sup>™</sup> has USDA approval for use in non-food-handling areas and is non-toxic, non-flammable, environmentally safe and easy to use. Nature's Appeal<sup>™</sup> can be placed inside air handling equipment to adsorb and neutralize odors and fumes throughout an entire building or placed in affected areas for odor redemption. Occupancy perception of poor Indoor Air Quality is exacerbated when odors and fumes are noticeable. Nature's Appeal<sup>™</sup> reduces in size as it reacts with airborne odor causing compounds. Nature's Appeal<sup>™</sup> will last 30 to 150 days based on loading. The residual material is both pH balanced and 100% biodegradable. This product has been used in central air systems as an odor adsorbent for years and no known instance of allergies or sensitivities have been reported or recorded.

### RECOMMENDED USES:

Nature's Appeal<sup>™</sup> can be used to neutralize the following odors:

Tobacco Smoke	Fire Smoke	Formaldehyde Fumes	Sulfide Odors
Mildew	Point	Solvent	Sewer Gas
Fuel	Pet	Restaurant Cooking	Decay

### LOADING RECOMMENDATIONS:

Light odors:	1 lb. per 400sq.ft. or ton of A/C or 350 CFM of fan capacity.
Medium odors:	2 lbs. per 400sq.ft. or ton of A/C or 350 CFM of fan capacity.
Heavy odors:	3 lbs. per 400sq.ft. or ton of A/C or 350 CFM of fan capacity.

### DIRECTIONS FOR USE:

To activate product remove lid and place inside the supply air plenum. (Area behind air filter and in front of the coils of your system) inside supply air ducting or in any affected area. For maximum effectiveness turn Nature's Appeal<sup>™</sup> onto lid, removing container.

### TECHNICAL INFORMATION:

Theoretical Coverage:	1 lb. per ton; or 400 Sq. Ft; or 350 CFM
Appearance:	White solid paste
pH:	7 (neutral)
Percent Volatile:	0% non-flammable
Flash Point:	125 F. (OC)
Clean up:	Water
Viscosity:	Paste gel
% Solids:	17%
Odor:	Mildly fragrant
Packaging:	½ lb.; 1 lb.; 4 lbs.; and 35 lbs. containers
Environmental (EPA registration):	None needed
Effects of Over Exposure:	None Known
Shipping:	FOB Addison, IL
